Our New Ever-Bearing American Wonder Lemon.

The Largest Edible Lemon
in the World.

Read what the People Say of it on Page Four.

The illustration given on the first page of cover was made from a 2½ lb. lemon, is the actual size of the fruit and was one of many on the tree when the drawing was made. This is by no means heavy as they often grow. Superb fruit have been taken from the tree weighing over 3 lbs. each. In addition to its fruit bearing qualities it makes a very handsome specimen plant for house culture. The dark green foliage is very large and handsome and the pure waxy white flowers with yellow stamens are nearly as large as Tuberosa blooms and as fragrant as Orange blossoms which it greatly resembles. The lemons have very thin rind for such large fruit and are full of rich acid juice and is fully equal to eight or ten ordinary lemons. It makes delicious lemonade and for culinary purposes has no equal. We guarantee every tree to produce the same large fruit, no budding or grafting being necessary. It is of the very easiest culture flowering and fruiting in any good ordinary soil.

Price for very strong young plants, 20 cents each; second size, splendid two-year-old plants that will fruit this season, 50 cents each; third size, extra large fruiting plants, \$1.00; fourth size is a magnificent specimen that will flower and fruit abundantly this season, \$2.00 each. The third and fourth size must be sent by express as they are too large to be sent by mail.

Please see page 3 for illustration of plant grown by us, also see page 4 for testimonials from patrons who purchased our Wonder Lemon last Spring.

HOW TO GROW FLOWERS.

A Great Monthly Magazine, Devoted Exclusively to Home Floriculture.

A Wonderful Help to All Who Grow Flowers.

There is published in this city a monthly magazine devoted entirely to flower culture. It is called "How to Grow FLOWERS," and its name very fully indicates the purpose of the publication. This journal tells what to do in order to grow flowers with success, when to do it, and in what manner. It is invaluable to all who desire their flowers to thrive and bloom. The articles published give the actual experience

of those who have succeeded in the culture of flowers. These experiences are told in a plain and practical manner.

It contains from twenty-eight to thirty-six large pages a month. In order to induce all our friends to subscribe for and read this valuable magazine, we have made a special arrangement with the publishers, which enables us to offer one year's subscription—twelve numbers—and the elegant collection of plants described below.

Hardy Scotch, or Sweet May Pinks.

These are the pinks of our mothers' gardens. They are dwarfer than the Carnation, growing about one foot in height, the colors being of the various shades of maroon, carmine and rose, beautifully laced and banded on white ground. The flowers are perfectly double, clove scented, and the plants will stand out of doors year after year, being entirely hardy. They make a very nice border for beds of other flowers, or for cemetery planting, making a large tuft of bronzy-green foliage a foot or more in diameter, from which the flower stalks are thrown up in great profusion. Price, 10 cents each; three distinct colors for 25 cents.

COLEUS—Grown in Pot.

CAUTION

THE AMERICAN Wonder Lemon.

[COPYRIGHTED.]

THERE is a firm in our city who is offering our **American Wonder Lemon** under the name of Ponderosa. Anyone receiving their catalogue of special bargains, etc., and will turn to page 28 of said catalogue will find a description and illustration of a so-called Ponderosa Lemon. This same cut was **made for us** last Spring to illustrate our Wonder Lemon, and was reduced one-fourth from the original drawing of a natural size fruit made by the Stecher Lithograph Co.'s artist for us. This same cut we used on our 3rd cover page last Fall to illustrate our Wonder Lemon, and to which we refer our patrons. This cut is our property, and was loaned to them without our knowledge, and used by them to illustrate our own American Wonder Lemon, of which they have a few plants, having secured two plants, from which they have grown a very limited quantity, and are offering them in small size only at 50 cents each, under the fictitious name of Ponderosa. Our customers will notice the description given of the so-called Ponderosa is almost identical with the description of our Wonder Lemon. We here assert, and are ready to back our assertion with our reputation, and, if necessary, with our money, that there is no such lemon as the Ponderosa, the same being our own American Wonder introduced by us last Spring; and we further assert that large plants, or fruiting size, cannot be bought of any firm in the U. S. other than ours; and we further agree to pay \$5.00 for every genuine

two-year-old plant of American Wonder Lemon, *alias* Ponderosa, that can be proven to have been purchased or can be purchased from any other establishment than ours. Furthermore, we re-iterate and brand as false and misleading the statement of said firm, or any other firm, that the so-called Ponderosa lemon is larger, better or different than our American Wonder Lemon; and we here promise and agree to pay the sum of **one hun-**

dred dollars to any person or persons who can disprove this assertion. We do not grow the lemon of Sicily, the fruit of which is small, but we have got the genuine American Wonder Lemon, *alias* Ponderosa, by the thousands, in one, two and three-year-old plants; and we ask our customers, Why pay 50 cents for a small plant grown from a cutting during the last few weeks when we will send you a handsome two-year-old fruit-bearing plant of the genuine Wonder Lemon, *alias* Ponderosa, for the same price? We also refer our friends to a few of the many testimonials received from delighted customers who bought their American Wonder Lemon from us last Spring. We, therefore, advise our friends who desire to procure our sterling novelty to send to headquarters for it. We have it by the thousands, and will not foist the inferior lemon of Sicily upon you, which we candidly believe will be done if you buy it elsewhere. If any of the above were not cold facts we dare not publish them. Truth is stronger than fiction, and six years of success in our business teaches us that it pays to be honest. As to our reliability to do as we promise, we refer our customers to the First National Bank of our city, the leading bank of Springfield.

LETTERS OF COMMENDATION.

THE STATE OF OHIO, } SS.
CLARK COUNTY.

CHAS. F. MILLER, being first duly sworn, says that he drew from nature the Lemon as shown on front page of this Catalogue. He further certifies that there were a number of lemons on the same tree, nearly as large as the drawing mentioned.

Sbscribed in my presence and sworn to before me by the said CHAS. F. MILLER, this 23d day of September, A. D. 1899. [SEAL.] HARRY S. KISSELL, Notary Public, Clark County Ohio.

Angleton, Tex., Nov. 9, 1899.

Messrs. Schmidt & Botley:

GENTLEMEN—My Wonder Lemon I got from you last spring is a beauty.

MRS. CLARK WELLS.

Owensboro, Ky. Oct. 19, 1899.

Messrs. Schmidt & Botley:

GENTLEMEN—The American Wonder Lemon, which Mrs. Martin ordered from you last spring, was received in good condition and planted in a tub. It is now five feet tall from top of tub. It bloomed in due time, having five or six small fruits, but all dropped off but two. One of these is now 13 inches in circumference, the other 11½ inches. Beside these large lemons, there are now four more just out of bloom, about as large as walnuts. The large lemons are to-day as green as the smaller ones. Respectfully yours,

H. P. MARTIN.

108 Avenue J, Chicago, Ill., Oct. 6, 1899.

Messrs. Schmidt & Botley:

GENTLEMEN—The American Wonder Lemon purchased of you came in splendid condition. I potted it and kept it rather wet while here, but during my absence in July and August it was badly neglected and scale got on it. It was in bloom when it came. I picked off all the lemon- but two. It is difficult to weigh them on the branches, but would judge they weigh about 5 ounces each, diameter 3¼ inches, length 3½ inches, circumference 11½ inches. It has been in bloom nearly all the time and is now. Fragrant as a jasmine. I have pinched off all lemons till within two weeks, but there are 19 small ones set now.

MRS. EDWARD ROHR,

Robinson, Ill., Sept. 4, 1899.

Messrs. Schmidt & Botley:

GENTLEMEN—The American Wonder Lemon tree that you sent me this spring has made a fine growth and has one lemon. The lemon is now nearly nine inches in circumference, and does not appear to be ripening any yet. I am very much pleased with it. Respectfully,

O. R. HEDDEN.

Maiden, N. C., Oct. 9, 1899.

Messrs. Schmidt & Botley:

GENTLEMEN—I am much pleased with the American Wonder Lemon tree. I got the tree very late in the season. Possibly one hundred blooms dropped before the roots took hold in the ground enough to nourish the fruit. Late in the season the blossoms did not drop, and now I have five lemons about two pounds each, which is much better than I expected, and the tree is flourishing. I will say again I am more than pleased with the tree. Yours truly,

J. M. HORSHOUS.

Piedmont, W. Va., Sept. 29, 1899.

Messrs. Schmidt & Botley:

GENTLEMEN—The American Wonder Lemon was received in good condition, the lemons uninjured. To say I was pleased does not express half my thanks for the nice, large specimen. It is the wonder of every one who sees it. They cannot believe it is a lemon, as they are so large. It is planted in a three-gallon bucket and kept in a room without heat, but we have fire in the next room. Your well wisher,

MRS. J. W. JENKINS.

Alumina, Va., Oct. 23, 1899.

Messrs. Schmidt & Botley:

SIRS—The American Wonder Lemon tree is growing finely; was white with blossoms, which were very large and sweet as tuberoses, but we think, owing to change of climate and perhaps soil, all dropped off. It began to blossom in July and the first week in August was white with blossoms, very fragrant.

Yours respectfully,

MRS. H. M. JOHNSON.

Hopkinsville, Ky., Oct. 17, 1899.

Messrs. Schmidt & Botley:

GENTLEMEN—The lemon on my tree is still growing. I measured it and it is 11 inches around. It also has one on it the size of a hen's egg. The tree is a beautiful plant, and the lemon has been very much admired by every one who has seen it. Yours truly,

MISS JOHNNIE BEARD.

Bixby, N. C., Sept. 26, 1899.

Messrs. Schmidt & Botley:

SIRS—I can say I think the Lemon has the right name—it makes the people wonder when they see it. My tree has two lemons on it, but they are fine. I am safe in saying they are as large as a pint cup, and are not yet ripe. The tree looks thrifty and nice. Yours truly,

J. F. ALLEN.

Marietta, Ohio, Oct. 10, 1899.

Messrs. Schmidt & Botley:

GENTLEMEN—I am well pleased with my Lemon tree. At first I did not take the care I should, and some of the lemons dropped off; then I began to water it and in a day or two it looked fresh, and three lemons remained on it. To day one measures 12½ inches around and 13¾ inches lengthwise, one 12¼ inches around and one 10¼ inches around. They have commenced to ripen, showing a little yellow.

Yours respectfully,

J. GORRELL.

Corpus Christi, Tex., Oct. 13, 1899.

Messrs. Schmidt & Botley:

GENTLEMEN—The American Wonder Lemon purchased of you was frozen to the ground last February 14; has come up from the root, and is growing nicely. I had large lemon and orange trees full of fruit at the time of the freeze. All were frozen to the ground. It was the severest freeze we ever had in Southwestern Texas. Yours,

JOHN A. SMITH.

Carral, Ind., Oct. 24, 1899.

Messrs. Schmidt & Botley:

SIRS—The Lemon tree arrived in splendid condition, was put into a half barrel in woods earth, kept at west window of sitting-room until weather was warm enough to put outdoors. It was then set on an open porch next to a summer kitchen with an open side next the porch, and I consider that the heat from the stove did it no good. However, the tree did remarkably well; not a leaf or bud withered or fell. But when the lemons reached the size of hazelnuts all fell off except one; that one is now ripening fast, and weighed two pounds on the limb, and I judge 1½ pounds would be about the weight of lemon alone. It measures 12½ inches round the largest part, 6¾ inches from stem to blossom end. It was caught out in the early frost, but neither tree nor fruit were injured. Respectfully,

MRS. BELLA BARNES.

Nipomo, Cal., Oct. 31, 1899.

Messrs. Schmidt & Botley:

DEAR SIRS—The American Wonder Lemon tree arrived in good condition. I set it out and it is doing nicely. It has had no fruit yet, but is now in bloom. It has not been out a year yet, and I could not expect it to bear fruit so soon after, considering the change of climate. Yours truly,

E. C. DANA.

Philadelphia, Pa., Oct. 2, 1899.

Messrs. Schmidt & Botley:

SIRS—The Lemon tree I purchased of you last spring has fruited beyond my expectations. It has been in bloom twice, and would have had nineteen lemons had I left them on. But when large enough to tell which were the healthiest, I kept two of the first bloom and one of the second. One from the first bloom is 3½ inches long, 3 inches in circumference and look as if they will be wonders among lemons. They are the largest I ever saw. If any of your customers in this neighborhood is skeptical he can call and see it.

Yours truly,

WM. F. BARRET,
5013 Melrose St., Station F.
Colorado, Tex., Nov. 2, 1899.

Messrs. Schmidt & Botley:

GENTLEMEN—The Lemon tree purchased from you last spring is all right and growing larger all the time. It had between two and three hundred lemons on it at one time, about the size of cherries. All fell off except two. At present these are very large—about the size of goose eggs, weighing about one-half pound. They are the largest lemons I have ever seen, and I would not part with it for three times its cost. Very respectfully,

MRS. J. H. HALLEY.

Portsmouth, Va.

Messrs. Schmidt & Botley:

GENTLEMEN—I have found the Lemon tree a perfect success. It has three very large lemons on it; they measure 4½ and 5 inches in diameter. Yours respectfully,

W. R. MINTER.

Washington, N. C., Oct. 3, 1899.

Messrs. Schmidt & Botley:

DEAR SIRS—The American Wonder Lemon received from you last spring has grown and flourished. It has borne a number of large, handsome and fragrant flowers, and has now two fine lemons not yet ripe nor fully grown, but considerably larger than ordinary lemons. I am very much pleased with it. Yours respectfully,

MISS M. M. B. RODMAIR.

Eight Hardy Ever-Blooming Roses.

We are constantly in receipt of enquiries from our customers for Roses that are ever-blooming and yet hardy. On this page we offer a very fine collection, combining these two qualities.

We will send the entire set of eight in very fine plants for only fifty cents. In splendid two-year-old plants, the set of eight for \$1.60. - - -

Hardy, Perpetual-Blooming Rose,

MADAME CHARLES WOOD

A true perpetual bloomer, begins to bloom almost as soon as planted, and continues all through the season. The flowers are extra large, very double and full, and quite fragrant. Color a bright, fiery scarlet, passing to a fine rosy crimson, elegantly shaded with maroon. Very showy and handsome, and one of the best Roses ever introduced for general planting.

New, Hardy, Ever-Blooming Rose,

CHAMPION OF THE WORLD

This Rose is the champion bloomer. It is also champion in form and color. Its blossoms are perfectly double to the center, and of the most perfect shape both in buds and blossoms, while its color is a degree of loveliness which few Roses can equal, being a rich, deep, rosy pink, a shade the delicate richness of which is seldom seen. Its size is very large for an ever bloomer, often as large and as fine as La France, or the best of Hybrid Perpetuals. You will miss a beauty should you fail to get it.

CLOTHILDE SOUPERT.

It is a strong vigorous grower. The flowers are large, double and beautiful in form, with style of the beautiful Rose "Ball of Snow." The flowers are borne in sprays, and the color blends from a soft shell-pink to a pure satiny-white. Roses with both these colors are borne on the same plant at the same time. No other Rose approaches it in flowering qualities.

YELLOW MOSELLA

Is another novelty that has been wanted for some years. Who does not know the beautiful Clothilde Soupert, the splendid bedding Rose? Mossella is a stronger grower, flowers are a little larger than the Clothilde Soupert, but appear the same way in clusters and on single stems; the color is chrome yellow in the center, getting creamy white on the edges of the petals; it will make a great bedder, and perfectly hardy. Price, 15 cents each; two-year-old plants 35 cents each.

MARIE GUILLOT.

Perfection in form, flowers large and double to the center. This holds first rank among white Tea Roses in purity of color and depth of petals. Best white Tea Rose for out-door bedding.

METEOR.

Of velvety red ever-bloomer, of the deepest glowing crimson, as fine as a Hybrid. A beautiful open Rose, free bloomer, and a very elegant pot Rose. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. The best rich, red rose for the garden ever introduced.

COUNTESS OF ROSEBERRY.

New, hardy Rose. We have in this charming variety probably the most beautiful Rose grown. Indeed, no one would take it for a Hybrid, as it is as delicate and beautiful in its tints as the most gorgeous of the Teas. No other Hybrid can approach it in exquisite coloring. Coloring is satin pink in center and deepens to the outer petals to a bright rose.

COMTESSE DE LABARTHE.

We have here in one Rose almost all the desirable qualities—exquisite perfume, beautiful coloring and a matchless profusion of flowers and growth. The color is a soft, light rose, with heavy shading of amber and salmon.

Countess Labarthe Blossoms.

This collection must be ordered complete, and when ordering please say "The Hardy Eight"

A Page of Rare Foliage and Flowering Plants.

The Grandest of all Decorative Plants,

ARAUCARIA EXCELSA.

(NORFOLK ISLAND PINE.)

Araucaria Excelsa.

Various names have been selected for this grand plant to properly convey to the mind the appearance of it. Some have called it the "Christmas Tree Palm" from its resemblance to a Christmas tree; others have called it the "Star Palm," because the leaves are arranged to form a perfect star, but no descriptive name can give any adequate idea of its beauty. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances; its symmetry of form, grace and beauty of foliage are unequalled in the vegetable kingdom. It is easily grown in the house and is highly ornamental. (See cut.) Extra fine plants 15 inches high. Three and four tiers of leaves. \$2.00 each. These can only be sent by express. Nice plants, 8 to 10 inches, \$1.00 each.

Azalea Indica.

Camellia Japonica.

The Royal Plant

CAMELLIA JAPONICA.

The royal family of greenhouse plants. Leaves glossy-green, and flowers of the most exquisite beauty and waxy texture. From pure white to crimson in almost endless variegation. The pure white ones are generally prized above the colored varieties. Their culture is nearly related to that of the Azalea, but their success is more certain. Requires shade and moisture throughout the hot season. Their time of blooming is Winter and early Spring. Requires a moderate and uniform temperature with as little artificial heat as possible. When set with flower buds great care must be taken in watering—when left too dry the buds are sure to drop. We have a fine assortment. Price, for very large, strong plants, by express only \$1.00 each.

AZALEA INDICA.

One of the most gorgeously blooming families, together with the showiest of all greenhouse plants. The colors of the flower vary from the purest white to the deepest crimson in untold variations. The soil should always be packed hard when transplanted. Their success depends, however, on the degree of moisture in the atmosphere in which they live. We have a number of the best flowering sorts that will flower finely this coming Winter, both double and single flowered, in any color desired. The plants we offer are magnificent specimens, the finest you have ever seen and all will bloom this year. Price, fine large plants, three years old, 75 cents each; extra large plants, \$1.00 each. Must be sent by express.

N. B.—Be sure and try our Azaleas. They will not disappoint you. In ordering name the color you wish. We can furnish them in the following colors: White, pink, crimson, salmon, rosy-lilac, and white striped with crimson.

The Magnificent Hardy AZALEA MOLLIS.

The bloom, which varies in colors from the most rosy-crimson to lemon-yellow, literally covers the compact, spreading plant, forming a huge bouquet, and which remains in perfection for a long time in May and June. Massed, they produce an effect that is actually dazzling. Price, 65 cents each.

The Charming Ever-Blooming Primrose,

Primula Obconica.

OBCONICA.

A lovely perpetual blooming primrose and admirably adapted to growing in a cool climate. The flowers are not large, but are profusely borne in loose trusses and are of a delicate rosy lilac, shading to white, and possess the true primrose fragrance. Each new leaf is enclosed in a long coral-red envelope, looking like a great red flower bud. A very fine plant for the lawn or bay window. Price, fine strong plants, 50 cents each; very fine large plants, 75c and \$1.00 each.

The bulbs are perfectly hardy, and should not be taken up over winter. Price, 10 cents each; three for 25 cents.

A Magnificent Hardy Vine,
THE MOUNTAIN BEAUTY.

—OR—

"THE QUEEN'S WREATH."**Antigonon leptopus.**

Is absolutely hardy, and once planted is practically everlasting. The foliage, as well as habit of growth, resembles Ampelopsis Veitchii, one of the most popular and valuable of hardy climbers. It surpasses Ampelopsis Veitchii, however, inasmuch as it produces immense clusters of the most exquisite flowers imaginable. The flowers are borne in prodigious profusion, and a well established plant, loaded with its gorgeous carmine flowers, is one of the grandest sights. Price, 20 cents each; three for 50 cents.

Red, White and Yellow Marechal Neils

Every one knows the famous old beauty, Yellow Marechal Neil, the only Rose that has kept its place in the very first rank over all others for more than a quarter of a century, and probably will always retain it. But every one does not know that the grand old Rose has at last two charming companions in the White and Red varieties of this royal Rose.

LARGE SIZED MARECHAL NEILS

We grow the largest, best and strongest-rooted Marechal Neils in this or any other city. If you want the very best, try ours. They are large and nicely shaped, and, above all, they are exceedingly well rooted, being grown slowly to attain this result.

OUR GREAT OFFER.—We will send one each of the Red, White and Yellow Marechal Neils, strong, well-rooted plants, for only 50c; the three in large two-year-old plants, for \$1.50.

THE RED MARECHAL NEIL.—This grand new Rose is a strong, vigorous grower, flowers large, full and of fine form; color a pure cherry-red, and sweet-scented. A splendid Rose, and destined to become very popular. Offered for the first time this spring. Price, 25c each; large two-year-old plants, 75c each.

The Marechal Neil.

The World-Renowned Rose, Yellow Marechal Neil—A beautiful deep sulphur-yellow, very full, very large and exceedingly fragrant. It is the finest yellow rose in existence. It has a climbing habit, and where it is allowed to grow until it attains a large size, as it will in a few years, it yields thousands of beautiful golden-yellow flowers. Especially desirable in the South. We sell annually fifty thousand of this rose alone. We have a grand stock of this variety. Price, first size, 10c each; large and nice shapely two-year-old bushes at 50c each, and an extra strong, robust fellow, that will take care of himself anywhere, the best you ever got, \$1; and a magnificent specimen with very large canes and splendidly rooted, for \$1.50.

White Marechal Neil—Identical with its famous parent, save in color. The fame of Marechal Neil, with its large, deep,

golden-yellow flowers, is so world-wide that nothing further need be said of this new variety to make it instantly popular than that it is the exact counterpart in every respect of Marechal Neil, its parent, save the color of flower, which is a pale creamy-white. Totally distinct. This remarkable variety is selling at enormous prices in Europe, where it originated. We consider ourselves fortunate in possessing some of the original stock plants, procured direct from the introducer, from which our stock has been propagated. It is a rapid climber, and quickly makes a bush of considerable proportions. For Southern cultivation it will be of great value, and as a companion plant to Marechal Neil we anticipate a splendid demand for it. Price, strong three-inch pot plants, 20c each; large two-year-old plants, 60c each.

NOTE.—We would strongly advise ordering the large Neils by Express. Success is then certain.

A Page of Six Golden-Yellow Beauties.

THE BEST OF ALL DEEP YELLOW ROSES.

SPECIAL OFFER.—The six beautiful Yellow Roses on this page for 60 Cents.
In Large Two-year-old Size, the six for \$1.50.

Media.

We place this elegant Rose the first in the list of new Roses for several reasons. In color it is a deep golden-yellow; full, round flowers of the largest size, perfectly double to the center, and the fragrance is elegant. The growth is vigorous, while the foliage is of that beautiful tint of green that goes so well with yellow. If you have heretofore been disappointed in getting a yellow Rose that pleased you in every particular, don't fail to try this one, as it will not only win your favor, but forever retain it. We have tested it thoroughly, and the praise here bestowed on it by us is richly merited. Price, 10 cents each; large two-year-old size, 30 cents each.

Pearl of the Gardens.

No yellow Rose in cultivation can equal this in its profusion of deep golden-yellow Roses. The only rival of Marechal Niel. Price, 10c each; large two-year-old size, 30c each.

Mlle. Franciska Kruger.

The striking color of this handsome Rose places it at once in the front as a bud producer in the open air. It is closely allied to Catherine Mermet, and resembles it in everything save color. In its shading of deep coppery-yellow it stands unique and distinct from all others. Price, 10 cents each; large two-year-old size, 30 cents each.

Isabella Sprunt.

A bright canary-yellow; large, beautiful buds, suitable for cut flowers, a very sweet Tea scent, profuse bloomer; it is no doubt the freest blooming of all yellow Roses. This variety has been a favorite in all gardens where good yellow Roses are planted for the past twenty years. There are none better. Price, 10 cents each; large two-year-old plants, 30 cents each.

Mlle. Cecile Berthod.

Most beautiful, both in bud and flower, which is deep golden-yellow. In fact, the deepest yellow in color of any Rose we grow. The foliage is very bright. This is a Rose of magnificent size and color. Altogether a grand Rose, and always in bloom. Price, 10 cents each; large two-year-old plants, 30 cents each.

Star of Lyon, Etoile De Lyon.

This magnificent Tea Rose is a rich golden-yellow, a strong, healthy and vigorous grower; immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Surely one of

the very best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy, both as to heat and cold, frequently standing the Winters here uninjured in open ground without protection, and blooming nicely all through the hottest part of the Summer. Price, 10 cents each; large two-year-old plants, 30 cents. (See cut.)

Star of Lyon.

If you desire fine Yellow Roses that you can easily grow, plant this set.

IT WILL NOT DISAPPOINT YOU.

There are no better Yellows than those offered on this page.

6 OF THE BEST LOVELY Pure White Roses.

What is more beautiful than a pure White Rose, either in bud or the full-blown flower?

WE OFFER

This set of six White Beauties, in strong plants, for only 50; in large two-year-old size, the set for \$1.50.

New Pure White Royal Tea Rose, Kaiserin Augusta Victoria, the Best White Rose in the World—This beautiful Rose has not only a royal name, but is a royal Rose as well. We have white Roses that have elegant buds, but when full blown are not all that is desired. Then again, we have white Roses that are elegant when full blown, but have poor buds. This Rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open; color, pure creamy-white. It far surpasses any other white Rose in all particulars, and has a much richer perfume. Price, 10c each; large two-year-old plants, 30c each.

Kaiserin Augusta Victoria.

The Beautiful New White Tea Rose, White Maman Cochet—The finest Rose of the year. Like its parent, the growth is vigorous, with rich, healthy foliage, producing large, fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet, and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice Roses to plant at least

New Tea Rose, Snow Flake—It is a lovely new white Tea—the freest flowering Rose we have ever seen. The Rose was introduced by C. Straus & Co., Washington, D. C., and by them grown in large quantities for cut flowers, they claiming it the most profitable white Rose they grow; that they had counted 153 buds and flowers on one plant in a single day, and the plant less than a year old. Nice young plants of this novelty for 10c each; large plants, 30c each.

The Bride—This is undoubtedly the finest white Rose ever offered to the public, and we take pleasure in recommending it to all our customers. It is a Rose that supplies a long-felt want. A few of the white, ever-blooming Roses now in commerce have beautiful double flowers, but none of them compare with The Bride in the size and shape of buds and half-expanded flowers. Price, 10c each; large two-year-old plants, 30c each.

Marie Guillot—We consider this variety the equal, if not the peer, of any Rose of its color in cultivation. A trial will convince any one that this endorsement is not extravagant. The flowers are full and extra large, very double and sweetly scented; has many rivals, but no equals for open-ground cultivation. Price, 10c each; large two-year-old plants, 30c each.

one of this beautiful new Rose. Price, 15c each; two-year-old plants, 40c.

The Queen—It is pure snow-white, makes good, fine-formed buds; is quite full, showing the center but slightly when fully open. The petals are thick and of good substance. Price, 10c each; large two-year-old size, 30c.

A Page of Velvety Crimson Roses

You can't get better red Roses than the five offered on this Page.
One strong plant each of these five Crimson Beauties for 50 Cents. In large two-year-old sizes, the five for only \$1.25.

New Crimson Rose, PRINCESS SAGAN.

The flowers of this variety are the richest crimson of any Rose in our vast collection. A single bud or blossom will catch the eye at a great distance, so brilliant is the color.

Indeed, it is unmatched in its velvety richness; could well be termed "The Velvet Rose." It is as free in blooming as *Bon Silene*. One of our customers in California writes that she is kept busy by people asking what Rose this is. Price, 10 cents each; large two-year-old plants, 30 cents each.

Souv. De Pernet Pere.

The flowers are extra large, having broad thick petals and long, tapering buds, with delicious Tea fragrance.

Color is a fine, clear, magenta-red, sometimes passing to a bright crimson. Very striking and beautiful, and of such good substance that the flowers retain their beauty for a long time. Price, 15 cents each; large two-year-old plants, 30 cents each.

The Meteor.

A velvety red ever-bloomer of the deepest glowing crimson, as fine as a Hybrid. Flowers are of a medium size, very double and slightly recurving. A beautiful open Rose, a free bloomer and a very excellent pot Rose. Has no tinge of violet or purple to mar its beauty. A vigorous, bushy grower, with healthy, bright foliage of the deepest green. Unquestionably the best dark velvety-red Rose yet produced. Grand, both in bud and flower. Price, 10 cents each; large two-year-old plants, 30 cents each.

Papa Gontier.

A grand red Tea of fine crimson shade and silken texture (as distinct from velvety texture). The bud is fine size and graceful form. Extremely free, both in growth and bloom. Very long and beautifully-leaved stems can be cut, the foliage being very dark heavy. One of the best and a perfect bedder. Price, 10 cents each; large two-year-old plants, 30 cents each.

Scarlet Bedder

This is without doubt the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. Flowers are large size, fiery scarlet, a color rarely seen in Roses. Planted everywhere on account of its color and freedom of bloom. Price, 10 cents; large two-year-old plants, 30 cents each.

Half-Blown Buds of Papa Gontier.

HARDY EVER-BLOOMING..... LaFrance Roses.

These are all Perfectly Hardy Roses, blooming constantly, and have the most admirers of any Roses we grow. There are no better Roses than the La France Roses. A distinctive characteristic of the set is the True LaFrance Fragrance, by which every one may be known. 

WE WILL SEND THE FULL SET OF SIX LOVELY LAFRANCE ROSES FOR 65c. IN LARGE, TWO-YEAR-OLD SIZE, THE SET OF FIVE FOR \$1.50. NOTE—LA FRANCE ROSES ARE ENTIRELY HARDY

Pink La France.

Pink La France—It is of superb form, and double as a rose can be. No variety can surpass it in delicate coloring—silvery rose shades with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored and fragrant in the highest degree. Price, 10 cents; large size, 30 cents.

Yellow La France (Madame Pernet Ducher)—A charming rose; a new shade in this section, being the first with a distinct yellow colored bud. The outside petals are sulphur yellow and assume a darker shade toward the center. The open flower is very graceful and holds well together. It is an ivory white in color, with a polished, glistening surface like a water lily. Price, 15 cents each; large two-year-old plants, 40 cents each.

Striped La France (Madame Angélique Veyssot)—Striped La France combines all the good qualities of a LaFrance in growth, fragrance, shape of bud and flower; in fact, differs not from it except in color. It is nicely striped, the marking being plain and distinct, the variegation a beautiful bright rose on a satin-pink ground. Price, 10 cents each; large two-year-old size, 30 cents.

White La France (Augustine Guinnoiseau)—Here we have a

beauty indeed; one we can recommend to all, whether for outdoor culture or for pots in the house in winter. It is identical with LaFrance, except in color. It is pearly-white, sometimes tinted with fawn. Price, 10 cents each; large two-year-old size, 30 cents.

The Red La France (Duchess of Albany)—We have no hesitancy in saying to our customers that this rose stands at the head of all roses, not excepting LaFrance. What we wish to impress is the fact that as a rose for all purposes it has no peer. It is identical with LaFrance, excepting in three points. Those are: A more vigorous growth, a large and more expanded flower, and a deep, even pink in color; not shaded, but what is called a solid color. Price, 10 cents each; large two-year-old size, 30 cents.

The New Climbing La France—A decided novelty in roses, and one we can strongly recommend to our customers. We give the description of the introducer: "It is doubtful if, since the introduction of General Jacqueminot and LaFrance there has been offered such a sterling novelty of roses as the Climbing LaFrance. The two varieties mentioned are conceded to be without a peer in their class, but the Climbing LaFrance towers so far above all climbing roses for the open ground that comparison is out of the question." Price, 20 cents each; two-year-old plants, 40 cents each.

FIVE BEAUTIFUL MALMAISON ROSES.

CLIMBING	RED	"SOUVENIR" PINK	STRIPED	WHITE
MALMAISON.	MALMAISON.	MALMAISON.	MALMAISON.	MALMAISON.

There are, we presume, but few persons who cultivate Roses that are not familiar with that old, tried and true variety, "MALMAISON." (This Rose is known in the South as "Souvenir.") It has been the one Standard variety in Rose gardens for the past thirty years; and, in fact, there is not a Rose extent that rivals it for general cultivation. We have the pleasure of offering four companions of it. They are exact counterparts of Malmaison in growth, foliage and freedom of bloom. In fact, in every respect except the color of their flowers, We feel sure they will be a welcome addition to all Rose gardens.

"Souvenir" de la Malmaison

This grand old variety, when used as a bedding Rose in Summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, double to the center, are produced in abundance, and have the requisite form and substance to withstand our hot, dry Summers. Exquisitely fragrant. A noble rose. Price, 10 cents each; large two-year-old plants, 30 cents each.

The Wonderful New Rose, CROWN PRINCESS VICTORIA, or

WHITE MALMAISON.

This Rose has our highest commendation. It is a vigorous grower, with large, fine foliage, and is one of the loveliest of all Roses. The color is a pure, waxy, snow white, the center of the flower has a lemon tint, just enough to light up and brighten it, and to those who desire a fine double flower when fully expanded, this will meet your wants, as it is very beautiful when full blown. Certainly a grand acquisition. Rembles that grand old Rose, "Malmaison," in shape and fullness. We doubt very much if there is a finer Rose grown than this one. It is grand in every respect. We have tested it fully, and each year only confirms our high esteem for it. The best white Rose we have to offer you. Price, 15 cents each; large two-year-old plants, 40 cents each.

The Grand New Rose

CLIMBING MALMAISON.

This Rose is an exact counterpart of Malmaison in foliage and flower, but is a rampant climber. You cannot tell the flower or foliage from that old-time, tried and true variety, Malmaison. It will be a welcome addition wherever climbing Roses are planted. Just imagine a Rose climbing over the side of your house or enclosing your veranda in its luxuriant foliage, bearing flesh-colored Roses of immense size, and double to the center. It is the strongest and most rampant grower of any climbing Rose we have. It made a growth the past season of twenty feet, and bloomed every month of the Summer. We can cheerfully recommend this Rose to all our patrons. Price, 15 cents each; large two-year-old plants, 40 cents each. This is the grandest climbing Rose we know of.

Souvenir de la Malmaison.

A Splendid Rose RED MALMAISON.

This Rose is not so well known as it should be, as it is a first-class Rose in every respect, being an exact counterpart of Malmaison except in color, being a rich, velvet-crimson of satin finish.

It is very bright and handsome, and is a great Summer bedder. Price, 20 cents each, large two-year-old plants, 50 cents each.

New Rose, BERTHA CLAVEL, or STRIPED MALMAISON.

This charming variety is a striped sport from old "Souvenir" de la Malmaison. The Grand New Velvety-Red Rose,

CLIMBING METEOR.

The brightest colored of all Roses. It has been called a Perpetual-Blooming Climbing General Jacqueminot.

All who know "Gen. Jack" will call to mind its beautiful, high-colored, rich, velvety-red buds and flowers. Climbing Meteor is the acme of all red climbing Roses. It is a free, persistent bloomer and will make a growth of from ten to fifteen feet in a season; in bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of all Roses for Summer blooming, as it will make a strong growth and is literally loaded with its deep, rich red flowers all the time. Its flowers are much larger than Meteor and are richer in color. It is just the Rose to train up the veranda or around windows, where its great beauty will show up to good advantage. Don't fail to plant one or more of Climbing Meteor. Price, 15 cents each; four for 50 cents; large two-year-old plants, 35 cents each.

CLIMBING WHITE PET

The Most Rapid Growing and Freest-Blooming Climbing Rose in Existence.

It blooms like Crimson Rambler. The flowers are pure snowy-white in color, of medium size, very double and full, and are borne continuously throughout the season in trusses, after the fashion of Crimson Rambler. They are produced in astonishing numbers—just as freely as any Polyantha variety. A well-established plant, with the shoots and stems covered with the beautiful large clusters of pure white flowers, presents a lovely sight. The flowers have the additional charm of being highly fragrant; they emit a cherry-like odor, both delicate and delicious. It will prove hardy in the coldest climate with moderate protection. It is a true ever-blooming Rose, pro-

ducing its charming flowers continuously throughout the season. It blooms the first year after planting. As a distinct and highly meritorious new Rose, the first of its class, this variety should meet with instant popularity. It is sure to give the utmost satisfaction. Price, 15 cents each; two-year-old plants, 35 cents each.

New Climbing Rose

CARMINE PILLAR.

This is a lovely new Rose, producing flowers from three and one-half to four inches across, semi-double, of the brightest possible scarlet-carmine, as rich as Douglas and produced very abundantly, the display lasting through most of the season, perfectly hardy, one of the very finest ornamental climbing Roses, of the freest growth. Price, 15 cents each; large two-year-old plants, 40 cents each.

THE MARY WASHINGTON ROSE

The introducer gives the following interesting account of its origin and history: "It is an historic fact that one hundred years ago George Washington, the greatest and most honored American that ever lived, raised in his garden at Mt. Vernon a seedling Rose, which proved to be a hardy perpetual blooming climber, producing large, double, snow-white blossoms in great profusion from June until frost. We hope in time to see it trailing over the door or gateway of every home in the land. Its flowers are pure white, perfectly double to the center, sweet, and borne in endless numbers all Summer. It is a vigorous grower. It makes a great profusion of fine buds, which are borne on long stems, and will produce more flowers and buds than a dozen ordinary Roses. Its fragrance is tinged with that old-fashioned musky flavor so much admired in olden times. Our stock is propagated from cuttings which came from the original bush at Mt. Vernon, on the Potomac." We offer here fine, strong plants, 10 cents each; large two-year-old plants, 30 cents each.

SPECIAL OFFER.

We will send you one each of these beautiful climbers from three-inch pots for only 50 cents. The five in large two-year-old size for \$1.50.

Wonderful New Climbing Rose, EMPRESS OF CHINA—This is a new Climbing Rose of the greatest excellence. It commences to bloom in May, and is loaded with its elegant blooms until December. But here we have a Rose that blooms continuously for over seven months of the year. It is simply wonderful. ❀ ❀ "UP-TO-DATE" ❀ ❀ NEW ROSES

We here offer some New and Rare Roses, the latest introduction from the World's Leading Specialists. We have a nice large stock of these new sorts and can therefore offer them reasonably. ❀ ❀ ❀ ❀ ❀ ❀

❀ Look Over the List. ❀ All the Best of the New Ones are Here. ❀

Climbing Kaiserin, or Mrs. Robert Peary.—This is by all odds the most remarkable new Rose of recent introduction. It is an offspring of that grand variety, Kaiserin Augustus Victoria. The flowers are extra large, full, deep and double. They are of excellent substance, and produced on long, stiff stems, like a forcing Rose. The buds are long and pointed, a remarkable feature not found in any other climbing Rose. The color and shape of the bud and flower are identical with Kaiserin Augusta Victoria. Pure ivory-white. The foliage is also identical. The fragrance is delicious. The most remarkable feature of this variety, however, is that it blooms continuously the first year. It grows to perfection out doors, throwing up numerous shoots ten to fifteen feet high in a single season. Price, 25 cents each.

New, Ever-Blooming Rose, "Climbing Malmaison."—A "sport" from the well-known Souv. de la Malmaison, similar in flower and foliage to its parent, but of exceedingly robust, climbing habit. There is no finer Rose than the old, well-known Malmaison, or "Souvenir" of the South, and we are sure that our patrons, one and all, will be glad to hear that we have a climbing variety that is identical with the parent. First time offered. The variety will prove of inestimable value to all lovers of fine climbing Roses. It will prove perfectly hardy south of Washington, D. C. Price, 15 cents each; large two-year-old plants, 30 cents each.

Viscountess Folkestone.—No Rose in our Catalogue has grown in popularity during the past year as Folkestone. It is unsurpassed among light colored varieties. It is graceful to the last degree, with strong healthy foliage. The flower is delicately tinted flesh, almost white, and lustrous as satin. When full bloom it is like a white Peony, but without a suggestion of stiffness. We have measured flowers of this variety six to eight inches in diameter. It is sweet scented. Don't fail to include Folkestone in your order. Price, 15 cents each; large two-year-old plants, 30 cents each.

New Tea Rose, Souvenir Gabriel Drevet.—This is a superbly rich Rose, carrying such combinations of color that it is sure to please. It is so thick in petals as to resemble soft velvet to the touch. It belongs to the tulip class, salmon pink, with the center of coppery-rose, elegantly edged darker. We have had many letters from the South praising the great beauty of this Rose, probably the most distinct Rose we grow the petals are so thick and velvet-like as to hardly resemble a Rose. Price, 15 cents each large two-year-old plants, 35 cents each.

Mme. Wagram (Countess de Turenne.)—A very rampant grower, with very large, full flowers of magnificent satin-rose color; extremely beautiful when fully open, 4½ inches across; also promises well as a pillar Rose for the far West and South. Like Paul Neyron in form. Extra good in all essential points. Price, 15 cents each; large two-year-old plants, 30 cents each.

Preciosa.—This grand new Rose is the freest bloomer of all the Roses we grow. It literally hides the plant with its lovely deep red flowers of brightest hue. It is full and double, of medium size, and we have counted fifty blooms on one plant ten inches in height. It will be a grand Rose for pot culture or for the garden. Price, 25 cents each.

President Cleveland, or Climbing Marie Guillot.—This grand new Rose is known in different parts of the country under both the above names. Of a semi-climbing habit and is identical with Marie Guillot, the loveliest of all white Roses, except it is a climber. It is worthy a place in any flower garden. Price, 25 cents each.

Climbing Bridesmaid.—Identical with Bridesmaid in every respect, except that it is a strong, vigorous climber. Indeed, it is the most rampant of all ever-bloomers that climb, and, like Climbing Kaiserin, it is also the most prolific bloomer of all the climbing Roses. It is a rose of unquestioned merit. Price, 25 cents each.

President Carnot.—It is a Rose of the largest size, beautiful both in bud and open flower. The buds come on long, stiff stems, in clusters of from six to twelve. Each individual flower stands out distinct on its stem. No crowding, as in the case of so many Roses that bloom in clusters. The color is distinct and novel, a lovely fawn, shading to pearl. It often measures five to six inches in diameter. We have no hesitation in saying that this charming Rose will become as popular as La France, as it has all the good qualities of that Rose, and at the same time is distinct in every feature. It is so handsome and distinct that it attracts immediate attention. It is indeed a wonderful Rose, one that everybody can grow and bloom. Price, fine young, strong plants, 15 cents each; fine two-year-old plants, 30 cents each.

New Hybrid Tea Rose, Pierre Guillot.—One of the finest and most valuable in the whole list. Bright, dazzling crimson, passing to beautiful carmine. Flowers large, very double and full, and highly scented. A healthy and vigorous grower, and a constant bloomer from June until frost. The outer petals are broad, round and decidedly recurved, showing the short, closely-set inner petals. Among the few good ever-bloomers this ranks very near the front, for it is double, without a tinge of disagreeable shade, and always in bloom. We have a very large stock of nice plants. Price, 15 cents each; large two-year-old plants, 30 cents each.

The Superb Scarlet Rose, "Climbing Wootton."—This elegant new Climbing Hybrid Tea Rose is one which promises to be a prime favorite wherever introduced. Everything good that can be said of the grand Rose, Souvenir de Wootton, can be said of this Rose, and more too. The flowers are large and of a velvety-red color, and the perfume is elegant. Whether open, half open or in bud the flowers are of fine shape. The flowers are borne at the terminus of long shoots, which render them especially good for cutting, much better, in fact, than the flowers of its parent, Souvenir de Wootton. Price, 20 cents each; large size, 40 cents each.

The Beautiful New Rose, Souv. Mad. Eugene Verdier.—This is one of the finest new Roses of the year. A grand, large, double flower; globular in shape; outer petals slightly recurving; buds of elegant shape and can be cut with long, stiff stems with handsome foliage; color, delicate creamy white, shading to saffron yellow at center. Plant a sturdy, vigorous grower, with fine, glossy foliage, a free and constant bloomer. Price, 15 cents each; two-year size, 30 cents each.

Enchantress.—Creamy white, tinted buff at the center, large, full and globular; of vigorous growth and extremely free in bloom; very distinct and defective; recommended by the raser for pot culture and for Winter bloom. Price, 15 cents each; large two-year-old size, 30 cents each.

Muriel Graham.—The latest addition to the Mermet family, being a sport from that fine variety, identical with it in everything save color, which is creamy-white, suffused with delicate pink. A color intermediate between Mermet and Bride, and as dainty as possible to imagine. Price, 25 cents each.

Clara Watson, New Hybrid Tea Rose.—A free bloomer, flowers very graceful, produced in remarkable profusion. Buds very beautiful, on long stems, desirable for cutting. Color, salmon-pink. Price, strong blooming plants, 15 cents each; large two-year-old plants, 40 cents each.

Sylph.—Ivory white, tinted peach; large, high centered, with deep, stiff petals, erect, free habit; foliage beautiful, very free in bloom. A fine new rose. Price, 15 cents each; two-year-old plants, 30 cents each.

Comtesse Lily Kinsky.—Flowers large, moderately full, of beautiful form; bluish-white, with yellow shadings; center almost ochre yellow; very fragrant and beautiful. Price, 15 cents each; large two-year-old plants, 30 cents each.

Antoine Riviere.—Flowers large and of Camellia-like form; clear, rosy-flesh shading to yellow shaded and lined bright carmine. A superb variety and very free. Price, 15 cents each.

HARDY HYBRID PERPETUAL ROSES.

Hybrid Perpetuals are considered the most valuable of all hardy plants. They are distinguished by their vigorous, upright growth and large, bold flowers, frequently measuring five to six inches in diameter. They thrive and succeed in all localities and are entirely hardy in any part of the country, and will live through severe Winters with a light protection of leaves or coarse manure. Some varieties do not bloom until the second year, but when fully established they all bloom freely at the usual time, early in the season, and continue to bloom during the Summer and Autumn months. Hybrid Perpetuals will bear a considerable amount of hardship and neglect, but improve greatly with good cultivation and rich soil. They should invariably be planted in open ground, as they are not suitable for house culture.

Bali of Snow—(Boule de Neige)—A finely-formed pure white Rose; occasionally shows light flesh when first opening. Beautiful shell-shaped petals, evenly arranged; flowers of good size. Price, 10c each; large two-year-old plants, 30c each.

LARGE TWO-YEAR-OLD PLANTS.

We have a good stock of Hybrid Roses of the large two-year-old size. These are Roses which nurserymen charge from \$1.00 to \$1.50 apiece for. We have put the price low, and are sure they will give more satisfaction for the amount expended on them than anything you can buy in the plant line, as they will give immediate effect. We have many letters telling us of the excellence of our large-sized Roses, and our stock is now in excellent condition, and is sure to please.

Hardy Rose, Paul Neyron—Deep shining Rose, very fresh and pretty, the flowers large, often measuring five inches in diameter, and it has this merit—though very large, the buds always develop, fine perfect Roses. It is, moreover, a good, strong grower, with nice, almost thornless stems, which often attain six to seven feet in a single season. We know of no Rose possessing so many good points to recommend itself as Paul Neyron. Grown by thousands in the Eastern cities for its good, free-blooming qualities. Price, 15c each; large two-year-old plants, 30c each.

Hardy Rose, General Jacqueminot—A rich, velvety-crimson, changing to scarlet-crimson. A magnificent Rose, equally beautiful in the bud state or open. New Hardy Rose, Countess of Roseberry—We have in this charming variety probably the most beautiful Rose grown. No other Hybrid can approach it in its exquisite coloring. Indeed, no one would take it for a Hybrid, as it is as delicate and beautiful in its tints as the most gorgeous of the Teas. The color is satin-pink in the center, and deepens to the outer petals to a bright rose. The feathery shading gives it the appearance of two distinct colors. It has completely captivated us. Very free flowering, and a good grower. Be sure and try it. Price, 15c each; large 2-year-old plants, 40c each.

We recommend it as being the finest garden Rose ever offered.

The color is glowing crimson throughout, except the edges of the petals, which are all distinctly marked with a white band, forming a sharp contrast and the most unique combination of colors known in Roses. The growth is free and vigorous, and the fragrance is delightful, equal to the finest of the Hardy Roses. This is a “novelty” of the most striking order. Price, 15c each; large 2-year-old plants, 40c each.

Hardy Rose, White Paony—This Rose was sent us by one of our customers. She did not know the name of it, but called it the White Paony, from its resemblance to that beautiful flower. We have never seen anything in the Rose line like it. The flowers are satiny-white, with a delicate shell-pink tinge. It makes large, spherical balls, and when seen in bloom is not soon forgotten. Very beautiful and entirely hardy.

Western King.

WESTERN KING

In the entire Chrysanthemum family there is no grander white variety, no matter when it blooms. It is the most popular style, immense incurving, broad, channeled petals, of great substance and the purest white. A perfect ball of snow. It is sixteen to eighteen inches in circumference. We think this variety does not possess a single fault.

BOUNDLESS SNOW

A most lovely and attractive variety. The color is white, flushed pink, gradually becoming pure white. Known as the "Informal Beauty."

MAUD DEAN

Grand, rosy pink, of fine build and large size; color extra good; one of the very finest among pinks. Should be in every exhibition collection.

DEFENDER

This is the richest deep crimson variety we have ever seen, and excels in its color as Golden Wedding does in yellow. The color is of the richest velvety crimson, which in the flower itself is soft and velvety-like. The outer petals are broad and drooping, and have a lustrous sheen in the sunlight. The form is flat, with drooping outer petals, which gives it a very graceful appearance. This is the popular form, and combined with the splendid color stamps Defender as a Chrysanthemum of rare merit.

The flower being flat, shows the three colors to advantage. The most beautiful combination of colors yet produced. Five feet high, seven inches in diameter. Awarded first-class certificate by the National Chrysanthemum Show, England.

OUR EARLY FLOWERING COLLECTION OF CHRYSANTHEMUMS.

A Grand Assortment that will Bloom Early and Long, embracing the Finest Sorts and Choicest Colors.

OUR SPECIAL OFFER: We will send the entire collection of ten early "Mums," post paid, for only Sixty Cents.

Golden Harvest.

Wyndmoor—A full and extremely double Japanese variety of largest size, without an eye, solid and well built, having been grown ten inches across. Style and shape of Mrs. I. Clark, except in color, which is a rich chestnut-red, similar to W. W. Coles, but brighter. Habit perfect for bush or exhibition bloom.

Golden Harvest—One of the grandest of all Chrysanthemums for exhibition. The color is a deep, golden yellow, very bright and very massive in build, as deep as wide, with crowded petals, stems very stiff, height four feet, foliage very beautiful. A grand addition to our already fine class of yellows. An ideal grower. Received twenty-five dollar premium at Indianapolis for best yellow. Also certificate from National Chrysanthemum Show at Philadelphia, November 10.

Glory of Pacific—We predict that this showy variety will rank highly among pink sorts. It is of magnificent size and depth, with broad petals, which finally reflex, showing the clear pink color to excellent advantage. It is of dwarf but vigorous habit; very early, large size. Must become a favorite.

Sundew—An exhibition bronze. This is an elegant grower. Heavy, stocky stems, and clothed throughout in fine foliage. Height four feet. The flower is of immense size, crowded with petals which are stiff and of great substance. Form incurving, depth about three and one-half inches. A most imposing bloom. Color Indian-red, faced with bronze. Received fifty-dollar premium at Indianapolis as best bronze.

Miss Kate Brown—One of the very finest of all the early whites, coming into bloom the first week in October; fully six inches across; a fine incurved flower, with broad petals; first-class disbudded, and also beautiful in natural sprays.

Miss Dalskov—The latest and greatest acquisition to the Chrysanthemum world. We have thoroughly tested this grand new variety and we cannot say too much in its favor. We had single blooms last fall that measured 10 inches across. In color it is a beautiful pink, entirely distinct from any pink Chrysanthemums yet exhibited.

Marion Henderson—We cut the first flowers on October 10, days before any other large yellow was ready and had perfect flowers to cut a month later. The texture of the flower is such that we have never seen it in the least affected by damp, although other varieties alongside of it were badly affected. We have never seen a symptom of any disease on it. This grand variety will be invaluable for early cut flowers, and, we believe, will occupy the same position among early varieties that Golden Wedding does among the late ones.

Cullingfordii—Reflexed. Exceedingly brilliant crimson, richly shaded with scarlet. Florets of a beautiful, rich, velvety texture. One of the very distinct and noted sorts. This is one of the finest red Chrysanthemums in existence, and too much cannot be said in its praise.

Ivory—Unexcelled for pot culture or cutting; pure white flower of exquisite form and finish. Has been shown in grand shape at all recent exhibitions; it is especially noticeable for its grand globular form, its dahlia-like petals and absolute purity of color.

Mrs. J. G. Whilldin—A handsome yellow variety of light tint, fine large size and splendid form. A magnificent addition to the scarce, very early, large flowering varieties. Whole large green-houses are devoted to this variety in the East for cut-flower purposes.

This collection must be ordered complete. It is sure to give satisfaction.

Granville—A most beautiful, soft, delicate, pink color; very dwarf and free.

NOVELTIES IN GERANIUMS

New Double Rosebud Geranium

(Florets like perfect Rosebuds.)

The habit of growth is dwarf and compact, making this variety one of the most desirable for pot culture. The novelty and merit, however, is principally in the flower, the perfect trusses of miniature rosebud florets, which are wonderfully attractive and pleasing. The color is bright scarlet, flamed with purple shadings, and the substance most lasting. A buttonhole bouquet of this variety will last longer than any other we know of, and then it is entirely unique. Certainly no Geranium in cultivation today is as distinct, and we are certain this remarkable novelty will make a sensation. Price, 10 cents each.

New Double Hybrid Geranium, *Peter Crozy*

New double scarlet Hybrid Geranium. A grand hybrid between the Zonals and Ivies, having the foliage of the former, but very heavy in texture; and while the forms of truss and florets are found only among the Ivies, the color is soft, bright scarlet, with veinings of maroon; a most distinct and pleasing variety, being the nearest approach to a scarlet yet introduced; habit of plant very dwarf and compact, and one of the most prolific flowering sorts in existence. Price, 10 cents each.

TUBEROUS - ROOTED BEGONIAS.

Our Bulbs or Tubers of these Showy Begonias
Are Very Large and Plump.

These are among the very handsomest of our Summer blooming plants, flowering throughout the season, and as fine and varied in their color as the Geranium family. They are splendid bedders, delighting in a light soil of woods earth, very old cow manure and sharp sand. See that the bed is in partial shade, and you will be delighted with the results. In the South, or where they cannot be planted in the shade of a house, a covering of burlap or canvas, some six or eight feet above them, merely to throw off the sun's rays, will allow them to come to absolute perfection, but they must have plenty of light and air. Do not allow them to become dry; and during hot weather they will take two waterings a day. When through flowering they can be dried off, shaken free of earth, and wrapped in cotton until February or March, when they may be started again.

They can be grown in tubs and kept for years. The blossoms average five or six inches in diameter, and are gorgeously colored. A very good way to make them bloom freely, and to facilitate the lifting in the fall, is to transplant each plant into a pot two or three sizes larger, than it has grown in, then plunge the pot altogether in the ground, the soil to cover the surface one or two inches. Then in the fall the plant can be lifted without injury.

Pure White and Coal Black Calla Lilies

Special Offer

We will send one each of the four Calla Lilies in largest size for only \$1.00. The four in smaller size for 60 cents.

Dwarf Calla, Tom Thumb.

THE NEW BLACK CALLA

Or Solomon's Lily.

Among recent bulb introductions we doubt if there has in several years been anything brought out which is so eminently desirable as this. It is a bulb which has come to stay, and finds its way rapidly in every collection of flowers. Its flowers are enormous, fully a foot in length. Color clear coal black, so intense that it really shows a brilliancy; and, as may well be imagined, it is a flower of the most striking oddity and beauty. A person who possesses a bulb of this Calla has indeed a treasure which will be the envy of an entire neighborhood. The bulbs are large, and should be potted in the Fall, and when growth commences set in a window. After blooming the foliage will die down, and the bulb should be kept dry for planting again in the Fall. In addition to its great beauty and oddity, it has a fine fruity fragrance. It is a native of the Holy Land. Treat same as for White Calla Lily. This is a very beautiful Lily, we having flowered it extensively. It is coal black, and is a great curiosity. Price of flowering bulbs, 25c each; extra large, 35c.

Black Calla.

NEW DWARF EVER-BLOOMING CALLA LILY, TOM THUMB.

The Most Wonderful of
All Plants.

"The Little Gem." The greatest value of this over the common Calla Lily lies in its dwarf habit and freedom of bloom. It rarely exceeds twelve inches in height and blooms most abundantly. The flowers are not more than half the size of the common variety, and therefore can be used with telling effect in bouquets. It is in every way superior as a house plant to the larger growing varieties. Price, nice blooming plants, 15c each; extra large size, 25c each.

Calla Richardia, the Spotted Leaved Calla.

Calla Ethiopica.

Egyptian Lily.

This is the well-known Egyptian Lily, or Lily of the Nile, with large white flowers, broad foliage, and it will prosper under very adverse circumstances. If you want large Callas send to us, as we are headquarters for them. We have three sizes, small plants to bloom next Winter, 10c each; strong blooming bulbs, 25c each; extra strong bulbs that will produce a half dozen of blooms, 50c each.

Calla Richardia.

Spotted Calla.

A plant with beautiful spotted leaves. It flowers abundantly during the Summer months when planted out in the open border. The flowers are shaped like those of a Calla, and are pure white, shaded with violet inside. Keep dry in Winter and start in Spring, like a Dahlia. The plant belongs to the same order as Calla Ethiopica. Price, blooming bulbs, 15c each; very large bulbs, 25c each.

Callas delight in a light, rich soil, and require plenty of water after growth has commenced...

..LARGE PALMS..

We advise the buying of good-sized Palms, as they are most satisfactory. Price, nice strong plants, \$1 each; very fine large specimens, \$2. By express only.
